SOC Analyst:

Analyst with a background in computer science, a certificate in Cybersecurity from Monash University, and preparing for CompTIA Security Plus Certification in October 2023. Skilled in monitoring security threats, managing security breaches, and implementing industry best practices to uphold stringent cybersecurity standards.

Skills:

- Proven ability to monitor and respond to security breaches of Ministry networks
- Proficient in utilising Splunk for monitoring security threats
- Sound knowledge of Metasploit, Nmap, Burp Suite, OWASP, Mitre Att&ck
- Mitre Att&ck and NIST SP 800-61 Frameworks

- Expertise includes Wireshark, Netcat, Nessus, John the Ripper, VS Code, Docker Container, Git Bash, Power Shell, Ubuntu Linux, Kali Linux, and Microsoft Defender 365 stack
- Proficient in IDS, IPS, and Firewall Configuration
- Familiarity with Azure Security Centre, Azure AD, Azure Sentinel, Key Vault, Web App Services, Azure DDoS Protection

Related Experience:

SOC Analyst, Bright Zone Int LLC, Melbourne, Australia, July 2021- Present, Remote, Link.

- Proactively monitored and responded to an average of 12 security breaches monthly using a comprehensive suite of enterprise tools, ensuring a secure network.
- Identified, analysed, and resolved 15 security vulnerabilities across various systems annually, adhering to stringent cybersecurity standards.
- Provided monthly insights and reports on technical and business cyber threat intelligence, contributing to a 20% reduction in identified security risks.
- Conducted quarterly cybersecurity training sessions for staff, resulting in a 30% increase in staff awareness and adherence to cybersecurity best practices.
- Successfully managed and maintained the security suite, ensuring a 25% reduction in unauthorised access attempts or security breaches within the Company's IT systems.

Projects:

Monash University - Cybersecurity Program

Real-world projects include:

- Web Application Security Enhancement | Link to Project
- Exploit Vulnerabilities in Rekall Corporation's | Link to Project
- Security Operation Centre (SOC) Analyst at VSI (Virtual Space Industries) | Link to Project
- Phishing Awareness Initiative | Link to Project

Education:

Certificate, Cybersecurity – Monash University, Melbourne, Australia, August 2023 Link

Bachelor of Science, Computer Science – NewPorts Institute
